

Arlington Town Meeting — Motion to Divide

ARTICLE NO. 49

Dated: April 24 2023__

I, Michael Jacoby Brown, TMM, Pct 17, do hereby submit a Motion to Divide Section 2(f) from the recommended vote of the Community Preservation Act Committee.

Comment: This motion allows the Meeting to vote separately on the funding for the Hill's Hill project. Hill's Hill has been used for mountain biking for decades. I have lived next to Hill's Hill for over 20 years. Many young people like to bike there and have used the trails as they see fit, as they have done so for decades. All are welcome to mountain bike there right now .. Spending \$400,000 for this small park would amount to this small space., to "fix" something that is not broken. This would stifle the creativity of many of our youth who like and bike there as it now is. It would not "preserve" anything. Using Community "Preservation" money would do the *opposite* of preservation. I have spoken with two boys who bike there and want to keep it as it is, which is why I filed this motion.

Respectfully submitted,

/s/ Michael Jacoby Brown
